

MALNUTRITION: A Silent Pandemic

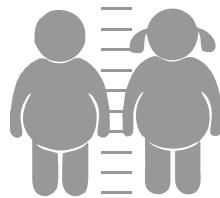

5 Faces of MALNUTRITION

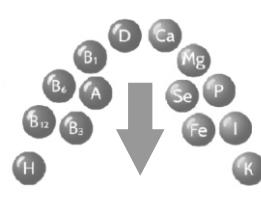

STUNTING

WASTING

OVERWEIGHT

MICRONUTRIENT DEFICIENCY

NON COMMUNICABLE DISEASES

STUNTING

“A chronic condition that limits physical & mental development of an individual”

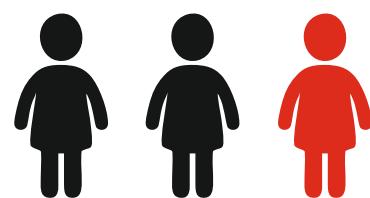

According to Global Nutrition Report 2018

India is home to

46.6 Million

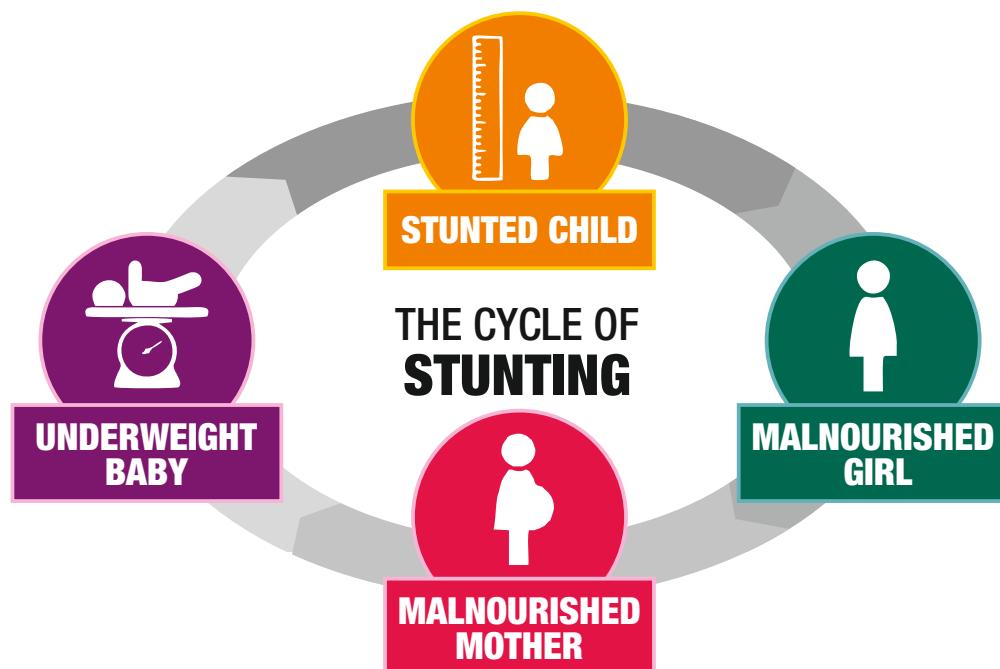

stunted children

India has 1/3rd of

world's stunted children

A problem which is often invisible, needs to be made visible

Improving NUTRITION is essential to end MALNUTRITION
